| —preference..... | \$6.50 | \$6.50 |
| Working capital..... | \$ 1,176,574 | \$ 1,294,484 |

To the Shareholders:

We are pleased to report that consolidated sales and earnings improved substantially during the year ended July 31, 1972. We attribute the increase in sales (from \$10.4 million to \$12.9 million) to the automotive side of the Company's business. The substantial increase in profit (from 5.9 cents to 76.4 cents per share) is attributed both to the increase in automotive sales and also to the reorganization described in detail in the last Annual Report. (Last year extraordinary losses reduced the narrow profit margin to a final loss figure of 36.0 cents per share. There were no extraordinary items this year).

During the year, your Company expanded its automotive divisions in order to grow beyond the production of exterior and interior trim parts. In addition to trim parts, we produced and sold oil strainers, motor mounting brackets, instrument panels and bumper guards. During 1972 our engineering and development facility was increased to develop new products. One immediate result will be our capacity in 1973 to produce automotive pulleys.

Based on past performance, your Company has been able to obtain a considerable increase in sales for the 1973 automotive original-equipment model year. In order to facilitate these requirements, the production facilities were expanded in two ways. We organized a production facility in the mid-western United States and are pleased to report that this plant is currently producing 1973 parts. In addition, on August 1, 1972, we acquired Vernomatic Limited in order to obtain a production facility which could immediately relieve excess pressure on 1973 automotive production.

In order to capitalize on your Company's knowledge in the production of automotive parts, management has been of the opinion that for both diversification and profitability, expansion should be made into the automotive after-market. During the year two opportunities arose to move in this direction. We acquired Nack Industries Company Limited, a producer of mufflers for the automotive after-market, and since acquisition we have been in the process of doubling its production facilities. In addition, we have organized another production facility to produce a combination heater and air conditioner motor for the after-market. We are commencing motor sales during the second quarter of 1973. In connection with this field, we have organized a separate sales unit which will

be responsible for obtaining new business for the after-market products.

The increase in automotive sales and the expansion in product line involves and will continue to involve heavy cash requirements for new capital investment. Despite these requirements, your Company expects to maintain adequate working capital without the need to seek new financing (otherwise than through expansions in ordinary lines of bank credit).

The outlook in your Company's other operations remains favourable, particularly in terms of profitability. The Electronics Division, engaged in the defence and aerospace industries, has in the last few years incurred heavy losses until reorganized in 1971 and 1972. The reorganization eliminated the losses in 1972 and the division should return a reasonable profit in 1973. A \$700,000 contract to produce antennae units for military use, plus a continued increase for producing washroom equipment should result in a profitable 1973 year for the Verral Division. The current backlog of orders on hand at Unimade Industries Division indicates that these operations, engaged in structural steel fabrication for the construction industry, should make a satisfactory contribution to profits for 1973.

Your Board of Directors is requesting at the annual meeting to change the name of your Company from Magna Electronics Corporation Limited to Magna International Inc. This name change reflects the fact that the nature of your Company's business has changed over the past few years and the fact that your Company has expanded its production facilities outside Canada.

At this date having regard to orders on hand and the promise of new markets and new products, your Company is in a stronger position than ever before. We look forward to increased sales and earnings in 1973. Our present position is the result of creative, intelligent, hard work on the part of a great many employees. We extend to them our warm appreciation. Together we look forward to a great future.

On Behalf of the Board,

Frank Stronach
Chairman

Burton V. Pabst
President

AUDITORS' REPORT

To the Shareholders of
Magna Electronics Corporation Limited:

We have examined the consolidated balance sheet of Magna Electronics Corporation Limited and its subsidiaries as at July 31, 1972 and the consolidated statements of profit and loss and earned surplus and source and application of funds for the year ended on that date. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion the accompanying consolidated financial statements present fairly the financial position of the companies as at July 31, 1972, the results of their operations and the source and application of their funds for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Toronto, Canada,

MAGNA ELECTRONICS CORPORATION LIMITED

and its subsidiary companies

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JULY 31, 1972

1. Long-term debt

- (a) The 6½% subordinated, sinking fund debentures, maturing \$75,000 annually with the balance due in 1987, are convertible into common shares at the holders' option on or before December 1, 1977 at the rate of 60.1779 common shares for each \$1,000 debenture.
- (b) Required payments during the next five fiscal years are as follows:
1973—\$342,995; 1974—\$310,793; 1975—\$261,456; 1976—\$185,672; 1977—\$126,930.
- (c) In prior years, the company received capital assistance grants from the Government of Canada which require repayment of one half of the grants without interest, in equal amounts over five years. Accordingly, 50% of the grants received have been recorded as a liability and 50% have been applied to reduce the carrying cost of machinery and equipment acquired out of the grant funds. Legal title to this machinery and equipment is vested in the Government until the liability to repay the grant is discharged.

2. Preference shares

- (a) During the period the company redeemed 55 preference shares at a price of \$4,675. The discount of \$825 realized on redemption has been included with contributed surplus.
- (b) Under the conditions attaching to the preference shares the company is required to establish a sinking fund on or before January 1 of each year for redemption of preference shares of an amount equal to the greater of:
 - (i) 3% of the consolidated net profit for the preceding fiscal period after deducting dividends on preference shares, or,
 - (ii) 2% of the par value of the issued and outstanding preference shares at the end of the preceding fiscal period.

3. Common shares

At July 31, 1972 a total of 155,859 authorized and unissued common shares are reserved for the following:

- (i) The conversion of 6½% sinking fund debentures into 109,824 common shares;
- (ii) Stock options granted to an employee in respect of 1,500 common shares at \$7.43 per share exercisable at the rate of 300 shares per annum;
- (iii) The issue of 18,500 common shares which are reserved for further options to employees;
- (iv) The issue of 26,035 common shares as part of the maximum consideration for the acquisition of Unimade Industries Limited. The number of common shares to be issued is subject to increase at the rate of one common share for each of \$8.50 by which the aggregate pre-tax profit of Unimade for the three year period ending on July 31, 1973 is more than \$250,000 to a maximum of 26,035 additional common shares. For purposes of this calculation pre-tax profits for the two years ended July 31, 1972 totalled \$109,739.

4. Remuneration of directors and senior officers

During the year remuneration paid to directors and senior officers of the company totalled \$223,000.

5. Exchange

Assets and liabilities in United States dollars have been translated into Canadian dollars at the rate of exchange in effect as at July 31, 1972.

6. Subsequent events

- (a) On August 1, 1972, the company acquired all of the outstanding common shares of Vernomatic Limited for \$93,100 cash, \$50,000 payable August 1, 1972 and the balance payable on or before August 1, 1973.
- (b) The company has agreed to sell certain of its land and buildings at amounts in excess of book value. These properties will be leased back from the purchasers.
